POST Blog posts

A hand-drawn wireframe of a web application interface for posting blog posts. The interface is contained within a browser window frame with three tabs at the top. On the left side, there is a vertical sidebar with a logo icon (a triangle with a circle inside) and the word "Logo". Below the logo, the word "POST" is written. Further down, there are four menu items: "Manage posts", "USERS", "COMMENTS", and "GENERAL SETTINGS". The main content area on the right has a header bar. Below the header, there are two small buttons labeled "TEST" and "ADD IMAGE". A large rectangular text input field with the placeholder text "ENTER TEXT" is positioned below these buttons. At the bottom right of the main content area, there is a button labeled "POST".

When user clicks on checkbox they can enable or disable comments

Settings

A hand-drawn wireframe of a web application's settings page. The page is titled "Settings" in the top left corner. The layout includes a top navigation bar with a "Logout" button on the right. A left sidebar contains a "Logo" icon and a list of menu items: "POST", "MANAGE POST", "USERS", "COMMENT", and "SETTINGS". The main content area is titled "USER INFO:" and contains two sections. The first section, labeled "EMAIL", has a text input field and an "EDIT" button. The second section, labeled "PASSWORD:", has a text input field and an "EDIT" button. The entire page is enclosed in a browser window frame with three tabs at the top.
